

AS332 DUAL FLIGHT MANAGEMENT SYSTEM UPGRADE

Heli-One offers a dual Flight Management System (FMS) upgrade for the Airbus AS332 platform. This upgrade uses the latest Satellite-Based Augmentation System (SBAS) technology, including GPS and LPV approach. The FMS includes a Multi-Mission Management System (MMMS) which allows the pilot to fly predefined patterns.

BENEFITS:

- Wider range of flight management tools and flight pattern automation reduces pilot and crew workload
- New GPS and LPV technology enhance situational awareness and safety
- MMMS maximizes mission performance with predefined strategic flight patterns
- Integrates with Electronic Flight Information System upgrade
- EASA and TCCA STC

COMPONENTS:

- Universal Avionics' UNS-1Fw FMS
- Universal Avionics' Solid-State Data Transfer Unit
- Universal Avionics' Radio Control Unit

UNIVERSAL AVIONICS' UNS-1FW FMS
